Message from the Guest Editor

Dear Colleagues,

We are pleased to announce that the Communications Section is presently compiling a collection of papers submitted exclusively by Editorial Board Members (EBMs) of our section and outstanding scholars in this research field.

The purpose of this Special Issue is to publish a set of papers that typify the very best of insightful and influential original articles or reviews, where our section EBMs discuss key topics in the field. We expect these papers to be widely read and highly influential within the field. All papers in this Special Issue will be collected into a printed edition book following the deadline and be extensively promoted.

We wish to take this opportunity to call on more excellent scholars to join the Communications Section such that we can achieve more milestones together.

The topics of interest to this Special Issue include but are not limited to:

- Wireless communications;
- 5G/6G communication systems;
- V2X communications
- Sensor and ad hoc networks;
- Intelligent communications and networking;
- Ultrareliability and low latency communications;
- Machine-to-machine communications;

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.
