IoT for Smart Agriculture

Guest Editors:

Dr. Dimitrios Piromalis

Dr. Konstantinos G. Arvanitis

Prof. Dr. Panagiotis Papageorgas

Deadline for manuscript submissions: **closed (15 July 2023)**

Message from the Guest Editors

This Special Issue aims to gather contributions in the form of original research papers and a limited number of reviews exploring developments and advancements in the "IoT for Smart Agriculture". This includes the optimization of any of the wireless sensing devices' design aspects (design for hostile external agricultural environments, innovation in hardware, software and firmware, robustness and reliability, EDGE computing integration, integration of AI for in-situ analytics, energy autonomy, etc.), the networking of "Things" and services with an emphasis on the application for the agricultural domain (i.e. communication protocols, cellular communications, context-aware middleware, cloud computing, etc.), and new smart agriculture applications according to Agriculture 4.0 (i.e., the combination of real-time data from the field and Al-based analytics to improve decision support operations, use of the concept of Digital Twins for modeling and control, use of a cyberphysical system approach to manage and exert control over diversity and complexity of physical systems in the agricultural domain, etc.).

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases. **Journal Rank:** JCR - Q2 (*Instruments & Instrumentation*) / CiteScore - Q1
