Deadline for manuscript  
submissions:

**closed (15 August 2019)**

### Message from the Guest Editor

Dear Colleagues,

The aim of this Special Issue is to bring together researchers active in the development of biosensors based on label-free technologies, methods or protocols. Label-free biosensors have attracted intense research efforts due to their advantages and their promise to provide analytical information and, often, real-time kinetic analysis, in a faster and cheaper mode without interferences from labels.

Works on classical label-free technologies, such as surface plasmon resonance or QCM, are welcome as well as those based on innovative techniques such as fully electronic readouts or whispering gallery modes. Manuscripts on the overcoming of challenges, related, for example, to real-world applications of label-free biosensors will be also appreciated.

I cordially invite you to share your work, expertise and insights, with the sensor-research community in the form of research articles and reviews for this Special Issue.

**Volume II of the Special Issue "Label-Free Biosensors".**

## Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

## Author Benefits

**Open Access :** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Instruments & Instrumentation*) / CiteScore - Q1 (*Instrumentation*)
