Message from the Guest Editors

There are some major limitations which need to be addressed in future research for effective PoC devices based on LSPR biosensing. Some of those challenges are the absorptive losses inherent in some plasmonic metals, specificity of analyte recognition, and the difficulty in immobilizing the target molecule near the plasmonic nanoparticles. While label-free detection is a key advantage in plasmonic biosensing, additional sensor system level advances are needed to address the influence of nonspecific interactions on the plasmonic signal. Finally, theoretical developments at the classical, semi-classical, and quantum mechanical levels for the above-described plasmonic phenomena will lead to better sensor designs. Utilization of any of the above phenomena towards plasmonic biosensing is of interest to this Special Issue, and such contributions are invited.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria
Elettrica e dell'Informazione
(Department of Electrical and
Information Engineering),
Politecnico di Bari, Via Edoardo
Orabona n. 4, 70125 Bari, Italy

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Instruments & Instrumentation*) / CiteScore - Q1 (*Instrumentation*)
