## Localising Sensors through Wireless Communication

Guest Editors:

**Prof. Dr. Maarten Weyn**

IDLab – Faculty of Applied Engineering, University of Antwerp—IMEC, Sint-Pietersvliet 7, 2000 Antwerp, Belgium

**Dr. Rafael Berkvens**

Faculty of Applied Engineering, IDLab, IMEC, University of Antwerp, 2020 Antwerp, Belgium

**Prof. Dr. Eli De Poorter**

IDLab, Department of Information Technology, Ghent University-imec, Technologiepark-Zwijnaarde 126, B-9052 Gent, Belgium

Deadline for manuscript submissions:

**closed (20 February 2023)**

### Message from the Guest Editors

The localisation of mobile devices often uses their wireless communication channels to estimate or aid the estimation of their location. Well-known examples include triangulation in cellular networks, fingerprinting in Wi-Fi networks, or proximity detection with Bluetooth radios. These concepts are still of interest, as they allow the finetuning of location estimation through advanced methods in artificial intelligence, Bayesian filtering, and multimodality. More recently, novel technologies have become widely available: ultrawideband, low-power wide area networks, and vehicular communication. These are now being investigated with proven approaches, and with smart approaches that incorporate the unique features of those novel technologies.

This Special Issue aims to report high-quality research in recent advances in localising sensors through wireless communication.

## Editor-in-Chief

### **Prof. Dr. Vittorio M. N. Passaro**

Dipartimento di Ingegneria  
Elettrica e dell'Informazione  
(Department of Electrical and  
Information Engineering),  
Politecnico di Bari, Via Edoardo  
Orabona n. 4, 70125 Bari, Italy

## Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

## Author Benefits

**Open Access** : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility**: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

**Journal Rank**: JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
