Message from the Guest Editors

Dear Colleagues,

Emerging applications in small spacecraft ADCS, on-orbit proximity operations and planetary exploration, are driving researchers to develop innovative GNC technologies. We are pleased to announce this special issue of *Sensors*, and invite manuscripts that highlight recent advances in this field. The scope of this special issue will include:

- Innovative designs for GNC sensors
- Novel sensing concepts and architectures
- Improvements in data processing techniques that enhance GNC performance.
- Case studies illustrating advances in sensor modelling, calibration, testing, and flight experiments

Enquiries about the issue's scope can be directed to the Guest Editors.

(Department of Electrical and
Information Engineering),
Politecnico di Bari, Via Edoardo
Orabona n. 4, 70125 Bari, Italy

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Instruments & Instrumentation*) / CiteScore - Q1 (*Instrumentation*)
