

## Advanced Research on Extraction and Analysis of Plant Extracts

Guest Editor:

**Prof. Dr. Lina Raudonė**

Department of Pharmacognosy,  
Lithuanian University of Health  
Sciences, Sukileliu Av. 13, 50162  
Kaunas, Lithuania

Deadline for manuscript  
submissions:

**31 August 2024**

### Message from the Guest Editor

Dear Colleagues,

Plant extracts have been used for medicinal purposes for centuries and continue to constitute an important area of research today. With advances in technology and analytical methods, plant compounds can be analysed with greater precision and efficiency than ever before. This has led to the discovery of new compounds with potential therapeutic benefits and to the development of a better understanding of the mechanisms behind the beneficial effects imparted by traditional herbal remedies. Among the key challenges in the extraction of plant compounds is the need to achieve a high yield of the desired compounds while minimizing the extraction of unwanted substances. The identification of phytochemical markers is important for ensuring the quality, safety, and efficacy of plant-based products and their extraction. This Special Issue aims to publish research on advances in the extraction and analysis techniques that can be applied to obtain a better understanding of the complex chemistry of plant extracts and their potential therapeutic benefits.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

Separations offers the scientific community a high-quality, open-access journal option with rapid time-to-publication without any sacrifice of a rigorous peer-review process. We invite contributions ranging from fundamental characterization and instrumentation development through application of techniques to shed light on a broad spectrum of separation science needs. Since inception, *Chromatography*, has become unique in its combination of rapid publication and thorough scientific content. We invite you to consider us for your next contribution.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [CAPlus / SciFinder](#), and [other databases](#).

**Rapid Publication:** manuscripts are peer-reviewed and a first decision is provided to authors approximately 13.6 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the second half of 2023).
