Deadline for manuscript
submissions:

closed (31 March 2021)

Message from the Guest Editor

Dear Colleagues,

This Special Issue will collect and highlight recent work in smart cities. We are inviting reviews, regular research papers (articles), and communications in all areas of research concerning smart cities. Topics include, but are not limited to the following:

- Electrical engineering for smart cities.
- Computer engineering and information technology engineering for smart cities.
- Cyber-physical systems for smart cities.
- Virtual reality for smart cities.
- Smart hospitals and health informatics for smart cities.
- Transport and mobility.
- Electronics, telecommunication, and measurements engineering for smart cities.
- Civil engineering for smart cities.
- Weather analysis, forecasting, reporting, and flood management for smart cities.
- Mechanical sciences and automobile engineering for smart cities.
- ...

Manuscripts for this important Special Issue of *Smart Cities* will be accepted by the editorial office, Editor-in-Chief, and editorial board members by **invitation only**. All the papers in this Special Issue will be published as **free of charge**.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

As urban environments continue to evolve, Smart Cities serves as a key platform for sharing innovative research that addresses the complexities of modern urban life. Our journal provides a space for interdisciplinary dialogue and knowledge exchange on the latest advancements in smart city technologies and practices. We prioritize research that not only pushes the boundaries of scientific understanding but also has practical implications for improving urban living, sustainability, and governance.

We welcome contributions from diverse fields that bring fresh perspectives to urban challenges, from smart infrastructure and IoT integration to data-driven decision-making and sustainable development. Through a combination of rigorous peer-review and rapid publication, we aim to disseminate impactful research that fosters the development of smarter, more resilient cities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [ESCI \(Web of Science\)](#), [Inspec](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q1 (Urban Studies) / CiteScore - Q1 (Urban Studies)
