It is with delight that we present the Special Issue “*Early Career Researchers' Contributions in Smart Cities*”, which showcases high-quality work pertaining to the science and technology of smart cities, with the first author being at the undergraduate, graduate, or post-graduate level—up to 5 years post-doctoral degree. This Special Issue aims to publish reviews, regular research papers (articles) and communications in all areas of research concerning smart cities. Early career researchers are invited to contribute manuscripts focused on, but not limited to, the following broad topics:

- Information and communication technology (ICT) in smart cities;
- Internet of Things (IoT) for smart cities;
- Smart sensing;
- Smart grids and smart infrastructures;
- Smart transportation and mobility;
- Smart energy;
- Smart buildings;
- Smart food and agriculture;
- Smart governance;
- Smart people;
- Smart economy;
- Smart healthcare;
- Smart living.

Message from the Editor-in-Chief

Smart Cities provides an advanced forum for the dissemination of information on the science and technology of smart cities. It publishes reviews, regular research papers (articles) and communications in all areas of research concerning smart cities. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the length of the papers so that the full experimental results can be reproduced. Manuscripts regarding research proposals and research ideas are particularly welcome.
