# **Geodiversity, Geoheritage and Sustainability**

Guest Editor:

#### Dr. Melinda McHenry

School of Geography, Planning and Spatial Sciences, University of Tasmania, Sandy Bay 7001, Australia

Deadline for manuscript submissions:

2 October 2024

## **Message from the Guest Editor**

Geodiversity is the natural range of minerals, fossils, soils, rocks, landforms and their associated processes and values. Geodiversity serves as the foundation of healthy ecosystems and society, providing geosystem and ecosystem services from cultural appreciation and aesthetic beauty to nutritious foods, critical minerals, habitat and environments for biodiversity, and building stones. Geoheritage conservation and the thoughtful management and interpretation of geodiversity are integral components of sustainability theory and practice. Initiatives such as UNESCO Global Geoparks, which aim to safeguard geodiversity and landscape while promoting sustainable development through geotourism, are one such exemplar of the fusion of environmental, cultural, and economic sustainability. Such endeavors—and many more —underscore the interconnectedness of preserving geodiversity and geoheritage while fostering local economies and community engagement.

### **Editor-in-Chief**

#### Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario Institute of Technology, Oshawa, ON L1G 0C5, Canada

## **Message from the Editor-in-Chief**

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international Open Access journal which provides an advanced forum for research findings in areas sustainability related to and sustainable development. Sustainability publishes original research articles, review articles and communications, I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering and applications of sustainability-based measures and activities.

#### **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
