

## Integrated Approaches to Biomass Sustainability

Guest Editor:

### **Dr. Kyriakos Maniatis**

Independent Consultant, prior  
European Commission, EUBCE  
Industry Track Coordinator,  
Brussels/Athens, Belgium

Deadline for manuscript  
submissions:

**31 May 2024**

### **Message from the Guest Editor**

Global efforts to defossilize the economy are gaining momentum in view of fighting climate change and, in all strategies and policies of OECD countries and the IEA, biomass is considered as one of the main sources to replace fossil fuels up to a certain extent.

This implies that new crops have to be developed, marginal and abandoned lands must be put into production, new land management systems must be improved, and more intense forestry operations must be fostered while ensuring the sustainability aspects of biomass production and use in a circular economy.

Traditionally, at the European Biomass and Exhibition Conference, all the above issues are usually addressed in several presentations. At the EUBCE 2023, 5–8 June in Bologna, several presentations and poster articles are going to be presented on the topic.

The scope of the Special Issue is to provide a solid basis for a clear understanding of the above biomass issues with a special focus on innovative biomass production and use in all type of applications and markets. The Special Issue aims to become a global reference on the state of the art on innovative intergraded approaches to biomass sustainability.

an Open Access Journal by MDPI

## Editor-in-Chief

### **Prof. Dr. Marc A. Rosen**

Faculty of Engineering and  
Applied Science, University of  
Ontario Institute of Technology,  
Oshawa, ON L1G 0C5, Canada

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
