Deadline for manuscript  
submissions:

**6 June 2025**

### Message from the Guest Editor

Dear Colleagues,

Grid-interactive renewable energy sources (RES) and electric vehicle (EV) systems are emerging technologies today, owing to lower energy costs and lower emission levels. Various research surveys have presented the effect of RES and EV grid integration in isolation. However, it is worth noting that, as RES and EVs continue to proliferate, the power grid is experiencing the combined effect of RES-EV integration. The EV distribution system network has an impact on the grid's power quality. The shunt active power filter is modelled using the popular neuro-fuzzy control technique for harmonic mitigation. The system performance improvement is analysed and compared to traditional compensation techniques. This special issue encourages researchers to share new developments and potential solutions addressing the aforementioned and other related topics in order to maximize the potential of these emerging technologies.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
