### Message from the Guest Editor

Setting objective and evaluating results of SBR:

- What are relevant objectives for SBR?
- When and how should the objectives for SBR be evaluated?
- Who should make and be involved in decision-making and evaluation of SBR?
- How to differentiate SBR objectives and results, for instance between output/outcome/added value, short/medium/long term or operational/tactical/strategic?
- How can results of evaluations be utilized in other SBR projects?

How can the process of CBR be enhanced?

- How can the value chain of SBR be improved?
- What new forms of tendering can improve the SBR process?
- What is the possible impact on SBR of new technologies like Virtual Digital Constructions, 3D-printing, Sensors, Drones, Industry 4.0, etc.?
- Is disruptive innovation relevant for SBR?
- What are the most promising cases for enhanced SBR processes?
