Message from the Guest Editors

Dear Colleagues,

We invite researchers from different disciplines to submit their work on sustainability from the perspective of creativity and innovation (and vice versa). We are specifically calling for novel methods in approaching creativity, innovation and sustainability, as well as international research approaches.

Some potential (not binding) areas of investigation for creativity and innovation:

- Novel and useful conceptual definitions of sustainability
- Novel and useful theoretical models of sustainability
- Novel and useful ideas to solve environmental, social problems with implications for sustainability
- Novel and useful methodological approaches to conduct research on sustainability
- Novel and useful approaches to ethics and sustainability
- Challenges faced when implementing novel and useful solutions to problems of sustainability
- Technological developments with implications for sustainability
