### Message from the Guest Editors

This Special Issue will consist of papers applying multi-criteria decision-making methodologies for evaluating and selecting the best solution for solving transport complex issues (quality issues, safety issues, behavior issues, survey design issues). In this Special Issue, we invite papers related to all transport sectors which utilize multi-criteria decision making as a methodology (AHP/ANP; BWM; TOPSIS; DEMATEL; PROMETHEE; ELECTRE and MABAC). The adopted outcomes can provide sustainable and efficient solutions for transport future strategic plans.
