**Prof. Dr. Mauro Caputo**

Deadline for manuscript  
submissions:

**closed (31 December 2023)**

### Message from the Guest Editors

Dear Colleagues,

This Special Issue aims to collect theoretical and empirical studies that analyse how to optimise supply chains operations employing cutting-edge technologies which are influencing organizations, and improving market and organizational performance. Moreover, the adoption of cutting-edge technologies in supply chains can be linked to sustainable development goals, resilience and human centrality in industrial processes. These issues are the basis of the new Industry 5.0 paradigm. Therefore, contributions showing how to adopt cutting-edge technologies to analyse and optimise supply chains without compromising environmental and social sustainability and ensuring supply chain resilience from an Industry 5.0 perspective are welcome.

Research methods may include (but not limited to) the following:

- Case studies; Surveys; Simulations;
- Optimization/algorithms techniques;
- Frameworks developed;
- Systematic literature reviews; New theories;

We look forward to receiving your contributions.

Dr. Vincenzo Varriale

Dr. Antonello Cammarano

Dr. Francesca Michelino

Prof. Dr. Mauro Caputo

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
