Message from the Guest Editors

Dear Colleagues,

Based on the importance of sustainability from the financial, technical and environmental aspects of the supply chain, it is irrefutable that this research topic is relevant. The increasing importance of cost, resource and energy efficiency in supply chain solutions and the intention to find design and operation strategies were a motivation for launching this Special Issue.

Potential topics include, but are not limited to, the following:

- Intelligent technologies to enhance supply chain sustainability;
- The simulation of the large-scale supply chain;
- Decision making in the supply chain;
- Information management in the supply chain;
- Business models in the sustainable supply chain;
- Optimization in supply chain design;
- Interconnected intelligent logistics for sustainability.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
