### Message from the Guest Editor

Dear Colleagues,

Biochar, as a sustainable material, has been used in many different areas. Biochar can be produced from different feedstock, and carries great potential to achieve sustainability for material, energy, agriculture, and environmental applications. In this Special Issue, we welcome your contribution to any aspect of biochar research and development, including, but not limited to, biochar production, biochar characterization, biochar application in different areas, and system development and analysis.
