Sustainability of Visitor Attractions and Heritage Interpretation

Guest Editor:

Prof. Dr. Marek NowackiInstitute of Applied Sciences,

WSB University, 61-895 Poznań, Poland

Deadline for manuscript submissions:

closed (30 April 2021)

Message from the Guest Editor

Visitor (tourist) attractions constitute the main element of the tourism system, playing a crucial role in tourist destinations. They attract visitors to destinations but are also agents of change, social enablers, and major income generators. Heritage interpretation is an important element of visitor experiences at visitor attractions. Visitors (or tourist) attractions cover a wide spectrum of facilities and sites, such as natural and cultural sites, thematic parks, museums, World Heritage Sites, national parks and reserves, etc. Interpretation plays two key roles in visitor attractions: It enhances visitor experiences, and it is a valuable tool in supporting the sustainability of attractions.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international Open Access journal which provides an advanced forum for research findings in areas sustainability related to and sustainable development. Sustainability publishes original research articles, review articles and communications, I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
