Urban Energy Management and Sustainable Transportation

Collection Editors:

Prof. Dr. Christos loakimidis

Center for Research and Technology Hellas/Hellenic Institute of Transport, CERTH/HIT, 6th Km Charilaou— Thermi Rd., Thermi, Thessaloniki, Macedonia, 57001 Hellas, Greece

Prof. Dr. Marc Frere

Thermodynamics and Mathematics Physics Unit, Université de Mons, 7000 Mons, Belgium

Dr. Konstantinos Genikomsakis

NZED Unit, Université de Mons, Mons, Belgium

Message from the Collection Editors

This Topical Collection will focus on urban energy management and sustainable transportation systems, with emphasis on bottom-up approaches that consider local renewable sources and storage systems in a flexible microgrid environment, under the presence or absence of smart mobility, applied in different buildings that as a whole have the characteristic to be identified as Net-Zero Energy Buildings. The new methods of modeling and systems characterization will be further lifted to a larger scale consisting of multiple buildings under an urban scenario where different forms of transportation interact and communicate with the integrated system, thus creating the so-called Multi-level System-of-Systems approach (MLSoS).

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international Open Access journal which provides an advanced forum for research findings in areas sustainability related to and sustainable development. Sustainability publishes original research articles, review articles and communications, I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
