

## Sustainable Strategies for Green Ports and Maritime Logistics: Innovations, Challenges, and Best Practices

Guest Editors:

**Prof. Dr. Nicoletta González-Cancelas**

**Prof. Dr. Alberto Camarero Orive**

**Dr. Francisco Soler Flores**

**Dr. Rodrigo Pérez Fernández**

**Prof. Dr. David Díaz Gutiérrez**

Deadline for manuscript  
submissions:

**2 October 2024**

### Message from the Guest Editors

The aim of this Special Issue is to gather high-quality research papers, reviews, and perspectives that focus on advancements in logistics system planning, port, and maritime system planning. We invite contributions that present novel findings, methodologies, theoretical frameworks, and practical applications within this field. Suggested Themes:

- 1: Optimization models and algorithms for logistics system planning in port and maritime contexts.
- 2: Application of emerging technologies (such as blockchain, Internet of Things, and artificial intelligence) in port and maritime system planning.
- 3: Sustainable practices and green initiatives in logistics, port, and maritime systems.
- 4: Risk management and resilience strategies for port and maritime operations.
- 5: Innovations in port infrastructure planning and design for efficient operations.

These themes serve as starting points, and we welcome submissions that fall within the broader scope of logistics system, port, and maritime system, even if they do not directly align with the suggested themes. We encourage authors to provide a clear rationale for the significance and relevance of their research within this field.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
