Road, Hefei 230026, China

Deadline for manuscript  
submissions:

**closed (30 April 2015)**

### Message from the Guest Editor

Dear Colleagues,

This special issue focuses on the evaluation, analysis and prediction of Chinese and World Sustainability; the recycling of renewable resources and the replacement of non-renewable fossil resources with renewable energy for the future; the science, technology and economic theory and method for developing a sustainable society and natural environment for both China and the World; the social change and thought transition, new production methods and new consumption styles for a sustainable China and World

Papers selected for this special issue were subject to a rigorous peer review procedure with the aim of rapid and wide dissemination of research results, developments and applications.

Dr. Weidong Huang
