Message from the Guest Editors

The present Special Issue entitled “Efficient Recovery of Solid Wastes for Sustainability” aims to cover the latest advances along with future perspectives in the field of waste management. The scope of the Special Issue includes but is not limited to the following topics:

1. Recovery of valuable components from solid wastes
2. Innovative synthesis of high-value materials from solid wastes
3. Integrated approaches for waste management and resource recovery
4. Green strategies of “waste treating waste”
5. Sustainability and circular economical aspects of recovery of solid waste

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
