submissions:
closed (30 June 2021)

Message from the Guest Editors

Dear Colleagues,

This Special Issue is dedicated to papers focusing on enabling the sustainable development of transport infrastructure, by embracing smart technologies and frameworks for safer and more resilient mobility on future roads, railways, airports, and ports. Moreover, ‘smart’ here is intended not only to mean ‘intelligent’, but also to refer to the elegant solutions achievable through the use of emerging technologies and techniques that are new, or still at an early stage, in the transport infrastructure sector. The scientific papers might be covering both applied and fundamental research for urban and inter-urban surface transport and they can focus on any of the sustainability pillars.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
