## Message from the Guest Editor

Dear Colleagues,

The goal of this Special Issue is to form a repository of current and diverse work investigating the various aspects of environmental safety, security and sustainability, by soliciting reviews, original research and emerging innovations that present.

(a) studies about the nature of contaminants, extent to which the pollutants are harmful to human being, what we can do to protect humanity, and how to scientifically quantify the risks and uncertainties.

(b) studies pertaining to environmental security, vulnerabilities, and technologies to counter such security challenges.

(c) pollution monitoring and sensing/detection using innovative platforms and internet of (every) thing.

(d) nexus of technologies, foresight tools and multi-criteria decisions support analysis and risk assessment to understand and bridge knowledge gaps

(e) policies, management issues, and resources management to enhance environmental sustainability.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international Open Access journal which provides an advanced forum for research findings in areas sustainability related to and sustainable development. Sustainability publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions. **High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
