## Global Meet on Condensed Matter Physics

Guest Editors:

**Dr. Vladimir Rumyantsev**

The Institute for Physics of  
Microstructures of the Russian  
Academy of Sciences, Kstovo,  
Russia

**Prof. Dr. Osman Adigüzel**

Faculty of Arts and Sciences,  
Department of Physics, Firat  
University, Elazig, Turkey

**Prof. Dr. Hari Mohan  
Srivastava**

Department of Mathematics and  
Statistics, University of Victoria,  
Victoria, BC V8W 3R4, Canada

Deadline for manuscript  
submissions:

**closed (31 October 2023)**

### Message from the Guest Editors

The Prime Meetings takes the pleasure to invite you to the [Global Meet on Condensed Matter Physics](#) will be held in Lisbon, Portugal during September 14-16, 2023.

GMCMP2023 is an annual meeting organised with the intend of being a platform for Condensed Matter Physics researchers, doctors, academicians as well as industrial experts from all over the world to present their research results and development activities in Condensed Matter Physics.

The meeting brings together World Class participants and young researchers looking for opportunities for exchanges that cross the traditional discipline boundaries and allows them to resolve multidisciplinary challenging problems that only a venue of this nature can offer. Through this event you will be able to share the state-of-the-art developments and cutting-edge technologies in the broad areas of Condensed Matter Physics.

We would like to strongly encourage you to submit your abstracts and register to attend in order to share your achievements in the fields of Condensed Matter Physics.

an Open Access Journal by MDPI

## Editor-in-Chief

### Prof. Dr. Sergei D. Odintsov

1. Institució Catalana de Recerca  
i Estudis Avançats (ICREA),  
Passeig Luis Companys, 23,  
08010 Barcelona, Spain  
2. Institute of Space Sciences  
(ICE-CSIC), C. Can Magrans s/n,  
08193 Barcelona, Spain

## Message from the Editor-in-Chief

Symmetry is ultimately the most important concept in natural sciences. It is not surprising then that very basic and fundamental research achievements are related to symmetry. For instance, the Nobel Prize in Physics 1979 (Glashow, Salam, Weinberg) was received for a unified symmetry description of electromagnetic and weak interactions, while the Nobel Prize in Physics 2008 (Nambu, Kobayashi, Maskawa) was received for the discovery of the mechanism of spontaneous breaking of symmetry, including CP symmetry. Our journal is named *Symmetry* and it manifests its fundamental role in nature.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

**Journal Rank:** JCR - Q2 (*Multidisciplinary Sciences*) / CiteScore - Q1 (*General Mathematics*); Q1 (*Physics and Astronomy*); Q1 (*Computer Science*)
