Message from the Guest Editor

Dear Colleagues,

As Editor-in-Chief of the journal *Symmetry*, I am pleased to announce this Special Issue, entitled “Symmetry: Feature Papers 2023”. In the past several years, we have cooperated with excellent scholars and scientific groups and have published several very important high-level studies which have already been cited numerous times according to the data from Web of Science. Our current aim is to present new insights into science development, or cutting-edge technology related to the symmetry field, which will make great contributions to the community. Thus, we will continue the Special Issue “Symmetry: Feature Papers” series in 2023.

You are welcome to send short proposals for submissions of Feature Papers to our Editorial Office (symmetry@mdpi.com) before submission. After the proposals have been evaluated, papers may be considered for publication free of charge.

These will firstly be evaluated by our Editors. Please note that selected full papers will still be subject to a thorough and rigorous peer review.

Message from the Editor-in-Chief

Symmetry is ultimately the most important concept in natural sciences. It is not surprising then that very basic and fundamental research achievements are related to symmetry. For instance, the Nobel Prize in Physics 1979 (Glashow, Salam, Weinberg) was received for a unified symmetry description of electromagnetic and weak interactions, while the Nobel Prize in Physics 2008 (Nambu, Kobayashi, Maskawa) was received for the discovery of the mechanism of spontaneous breaking of symmetry, including CP symmetry. Our journal is named *Symmetry* and it manifests its fundamental role in nature.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank: JCR - Q2 (*Multidisciplinary Sciences*) / CiteScore - Q1 (*General Mathematics*); Q1 (*Physics and Astronomy*); Q1 (*Computer Science*)
