Message from the Guest Editors

Dear Colleagues,

Symmetry 2017—The First International Conference on *Symmetry* (<http://sciforum.net/conference/symmetry2017>), organized by the MDPI journal *Symmetry*, will be held in Barcelona, Spain, 16–18 October 2017. We welcome scholars, engineers, students and enterprises to join this big event, and submit abstracts to our conference website.

To promote the results of abstract submissions, we will collect the conference proceedings in an electronic book format and announce this on the *Symmetry* webpage (<http://www.mdpi.com/journal/symmetry>). In addition, we have set up this Special Issue to publish full papers from the conference.

Manuscripts submitted to our journal *Symmetry* will receive a thorough peer review and fast publication.

Message from the Editor-in-Chief

Symmetry is ultimately the most important concept in natural sciences. It is not surprising then that very basic and fundamental research achievements are related to symmetry. For instance, the Nobel Prize in Physics 1979 (Glashow, Salam, Weinberg) was received for a unified symmetry description of electromagnetic and weak interactions, while the Nobel Prize in Physics 2008 (Nambu, Kobayashi, Maskawa) was received for the discovery of the mechanism of spontaneous breaking of symmetry, including CP symmetry. Our journal is named *Symmetry* and it manifests its fundamental role in nature.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank: JCR - Q2 (*Multidisciplinary Sciences*) / CiteScore - Q1 (*General Mathematics*); Q1 (*Physics and Astronomy*); Q1 (*Computer Science*)
