SMART MODEL-BASED GOVERNANCE: Achieving Effective Decision Making through the Synergy of Data-Based Technology with Modeling & Simulation Approaches

Guest Editors:

Dr. Stefano Armenia

Dr. Eliot H. Rich

Dr. Eduardo Ferreira Franco

Deadline for manuscript
submissions:

closed (31 December 2023)

Message from the Guest Editors

Dear Colleagues,

We invite submissions of papers to this Special Issue, that seeks to explore and contribute to the intersection of research fields such as governance, decision-making, modeling and simulation (different paradigms), and data analytics (artificial intelligence, machine learning, analytics, etc.). By joining together theories, methods, practices, and tools from such fields, novel approaches shall be explored that aim to make several decisions in a short time interval while coping with an extensive amount of data, hence addressing both current and future challenges in the process of improving the overall outcomes of good governance.

Dr. Stefano Armenia

Dr. Eliot H. Rich

Special Issue

systems

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. William T. Scherer

Chair, Department of Systems
and Information Engineering,
University of Virginia,
Charlottesville, VA 22904, USA

Message from the Editor-in-Chief

Systems is a leading venue for the quick and global dissemination of results of cutting-edge research in various areas of systems science and systems-related fields. An increasing number of researchers are realizing the enormous potential of systems thinking in managing the many unprecedented and complex issues in all areas of need. The *Systems* journal provides a home of exceptional quality for the manuscripts of these researchers who often find it difficult to publish their work in conventional discipline focused journals.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SSCI (Web of Science), dblp, and other databases.

Journal Rank: JCR - Q2 (*Social Sciences, Interdisciplinary*) / CiteScore - Q2 (*Modeling and Simulation*)
