## Advanced Green Information and Communication Technology

Guest Editors:

**Prof. Dr. Stefan Naumann**

Institute for Software Systems,  
Trier University of Applied  
Sciences, Environmental Campus  
Birkenfeld, Birkenfeld, Germany

**Ms. Eva Kern**

Faculty of Sustainability,  
Leuphana University Lüneburg,  
21335 Lüneburg, Germany

Deadline for manuscript  
submissions:

**closed (31 August 2018)**

### Message from the Guest Editors

Dear Colleagues,

Information and communication technologies (ICT) are growing rapidly. Consequently, the emissions caused by the usage of ICT increase significantly, and more and more hardware is produced and has to be disposed of after its life time. On the other hand, ICT can innovatively contribute to solve environmental problems in branches such as automotive, production, logistics, or in general sustainable development. Therefore, this Special Issue calls for new and innovative solutions in the field of green ICT, green information systems, green software and its engineering, and also solutions how ICT can contribute to the goals of sustainable development, including ICT-based environment and friendly solutions for industrial and public sectors. This comprises hardware and software solutions, models, and frameworks. Additionally, case studies and the evaluation of best practices are welcome.

- Green IT
- Green Information Systems
- Green Software Engineering
- Green by ICT
- Sustainable Software
- Sustainability Informatics/Sustainable ICT

# Special Issue

an Open Access Journal by MDPI

## Editor-in-Chief

### Prof. Dr. Manoj Gupta

Materials Group, Department of  
Mechanical Engineering, National  
University of Singapore, 9  
Engineering Drive 1, Singapore  
117576, Singapore

## Message from the Editor-in-Chief

*Technologies*, provides a single focus for reporting on developments of all technologies, regardless of their application. It is our intention that *Technologies* becomes the journal of choice for both researchers wanting to publish their work and technologists wishing to exploit the high quality research across a wide range of potential applications. Through its open access policy, its quick publication cycle, *Technologies* will facilitate the rapid uptake and development of the research presented, ultimately providing benefit to the wider society.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within ESCI (Web of Science), Scopus, Inspec, INSPIRE, and other databases.

**Journal Rank:** CiteScore - Q1 (*Computer Science (miscellaneous)*)
