### Message from the Guest Editor

Dear Colleagues,

The 5th Venoms to Drugs Meeting will be held at The Mantra, Kingscliff in NSW from October 19-24, 2014. The conference will focus on venoms from cone snails, scorpions, spiders, snakes and other species. These venoms continue to provide an immense reservoir of potent bioactive peptides that target specific enzymes, ion channels and receptors. As such, they represent major sources of lead compounds for both the development of pharmacological tools and novel drugs. The special issue aims to bring together active scholars and researchers to present their current scholarly work in venoms to drugs .

## Message from the Editor-in-Chief

Toxinology is an incredibly diverse area of study, ranging from field surveys of environmental toxins to the study of toxin action at the molecular level. The editorial board and staff of *Toxins* are dedicated to providing a timely, peer-reviewed outlet for exciting, innovative primary research articles and concise, informative reviews from investigators in the myriad of disciplines contributing to our knowledge on toxins. We are committed to meeting the needs of the toxin research community by offering useful and timely reviews of all manuscripts submitted. Please consider *Toxins* when submitting your work for publication.
