

Dear Colleagues,

As Editor-in-Chief of *Viruses*, I am pleased to announce the winners of the *Viruses* Travel Awards for 2018:

**Travel Awards** were granted to **Dr. Gabrielle Vieyres**, post-doctoral researcher at the Institute of Experimental Virology, TWINCORE- Centre for Experimental and Clinical Infection Research GmbH, Hannover, Germany (laboratory of Dr. Thomas Pietschmann), and to **Nandan Gokhale**, PhD student at the Duke University Medical Center, Durham, NC USA (laboratory of Dr. Stacy Horner). Dr. Vieyres's research focuses on the interplay between HCV replication and the host lipid metabolism. Mr. Gokhale's research deals with how the RNA modification *N*6-methyladenosine (m<sup>6</sup>A) regulates RNA virus infection, both at the viral and host level.

Each travel award provides **800 Swiss Francs** to attend any virology conference in 2018.

Congratulations to the winners of this very competitive travel award.

Editor-in-Chief,  
Dr. Eric O. Freed  
Director, HIV Dynamics and Replication Program  
Center for Cancer Research  
National Cancer Institute  
Frederick, MD, USA

## 2018 TRAVEL AWARDS WINNERS

*Viruses* (ISSN 1999-4915) Impact Factor 3.465 (2016 Journal Citation Reports®), [www.mdpi.com/journal/viruses](http://www.mdpi.com/journal/viruses). The competition for 2019 *Viruses* Young Investigator Prize and the *Travel Awards* will be opened in early June. Please check [www.mdpi.com/journal/viruses](http://www.mdpi.com/journal/viruses) for more information as this date approaches.
