Message from the Guest Editors

Dear Colleagues,

Our realization of the importance of the large and diverse group of long non-coding RNAs (lncRNAs) in cell biology has increased substantially in recent years. Understanding the impact of lncRNAs on virus biology is a key area of investigation in the field of virus–host interactions and viral pathogenesis. The purpose of this Special Issue of *Viruses* is to present and highlight key findings in the interplay between viruses and lncRNAs—particularly in the area of host–virus interactions and antiviral immunity.

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Viruses* (ISSN 1999-4915). *Viruses* is published in open access format—research articles, reviews and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Viruses* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High Visibility: indexed within **Scopus**, **SCIE (Web of Science)**, **PubMed**, **MEDLINE**, **PMC**, **Embase**, **PubAg**, and **other databases**.

Journal Rank: JCR - Q2 (Virology) / CiteScore - Q1 (Infectious Diseases)
