Wastewater Pollution and Control

Guest Editors:

Dr. Tan Chen

Dr. Zhengyu Jin

Dr. Ting Yang

Dr. Bing Zhang

Dr. Xue Xia

Deadline for manuscript
submissions:

30 June 2024

Message from the Guest Editors

It is a great pleasure to greet you from the *Water*. We are inviting manuscripts for the journal's Special Issue in the form of original research, reviews, case reports, short reports, etc.

Wastewater contains many pollutants and is discharged by various sources in large amounts. The control technology and health effect of wastewater and water environment is a continuous research focus, and meanwhile, a lot of novel methods, materials, and understandings are investigated and analyzed. The aim of the Special Issue is to report the research and engineering practice progress in wastewater pollution, risk, and treatment. We are pleased to invite you to submit your manuscript on the topics of WASTEWATER and WATER ENVIRONMENT.

In this Special Issue, original research articles and reviews are welcome. Research areas may include (but not limited to) the following: wastewater pollution and ecological risk, wastewater health effect, new pollutants in wastewater, novel treatment technologies of wastewater, and wastewater management strategy.

We look forward to receiving your contributions.

Dr. Tan Chen
Dr. Zhengyu Jin
Dr. Ting Yang
Dr. Bing Zhang

Special Issue

water

an Open Access Journal by MDPI

Editor-in-Chief

Dr. Jean-Luc PROBST

Laboratory of Functional Ecology
and Environment, Centre
National de la Recherche
Scientifique (CNRS), University of
Toulouse, Campus ENSAT,
Auzeville Tolosane, France

Message from the Editor-in-Chief

In the context of global changes, the sustainable management of water cycles, going from global and regional water cycles to urban, industrial and agricultural water cycles, plays a very important role on the water resources and on their relationships with food, energy, biodiversity, ecosystem functioning and human health. *Water* invites authors to provide innovative original full articles, critical reviews and timely short communications and to propose special issues devoted to new technological and scientific domains and to interdisciplinary approaches of the water cycles. We ensure a critical review process and a quick turnaround between submission and final decision.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, GeoRef, PubAg, AGRIS, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q2 (*Water Resources*) / CiteScore - Q1 (*Water Science and Technology*)
