## Optimizing Green Infrastructure Design and Placement for Integrated Urban Watershed Management

Guest Editors:

#### Dr. Kun Zhang

Department of Civil Engineering, University of Minnesota Duluth, Duluth, MN, USA

#### Dr. Yang Yang

Department of Civil Engineering, The University of Hong Kong, Hong Kong, China

#### Dr. Gustavo H. Merten

Department of Civil Engineering, University of Minnesota Duluth, Duluth, MN, USA

Deadline for manuscript submissions: closed (31 March 2024)

## **Message from the Guest Editors**

The objective of this Special Issue is to synthesize recent advances in data, instrumentation, modelling, and analysis focused on optimizing the integrated, system-wide benefit of GI at watershed scales. Interdisciplinary research is particularly welcomed.

# **Keywords**

- urban watershed: green infrastructure
- nature-based solutions
- stormwater management
- stormwater runoff
- hydrologic modelling
- machine learning
- optimization
- low impact development
- sustainable drainage systems

### **Editor-in-Chief**

#### Dr. Jean-Luc PROBST

Laboratory of Functional Ecology and Environment, Centre National de la Recherche Scientifique (CNRS), University of Toulouse, Campus ENSAT, Auzeville Tolosane, France

#### Message from the Editor-in-Chief

In the context of global changes, the sustainable management of water cycles, going from global and regional water cycles to urban, industrial and agricultural water cycles, plays a very important role on the water resources and on their relationships with food, energy, biodiversity, ecosystem functioning and human health. Water invites authors to provide innovative original full articles, critical reviews and timely short communications and to propose special issues devoted to new technological scientific domains and and to interdisciplinary approaches of the water cycles. We ensure a critical review process and a quick turnaround between submission and final decision

## **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, GeoRef, PubAg, AGRIS, CAPlus / SciFinder, Inspec, and other databases.

**Journal Rank:** JCR - Q2 (*Water Resources*) / CiteScore - Q1 (*Water Science and Technology*)
