Sustainability Research Institute,
School of Earth and
Environment, University of
Leeds, LS2 9TJ, Leeds, UK

Deadline for manuscript
submissions:

closed (30 June 2017)

Message from the Guest Editors

Dear Colleagues,

The objective of this Special Issue is to improve knowledge on the use of economic instruments for water policy and evaluation of the impact of water policy implementation. Contributions will be of great value for environmental agencies, administrators and regulators, and will benefit society as a whole by means of identifying ways of maximizing social utility of water resources allocation and mechanisms to implement economic instruments and methodologies. Discussion will be facilitated regarding water policies tackling drought, climatic change and overextraction in most of the arid regions of the world, such as the revision of the EU Water Framework Directive planned for 2019.

Dr. Julio Berbel

water

an Open Access Journal by MDPI

Editor-in-Chief

Dr. Jean-Luc PROBST

Laboratory of Functional Ecology
and Environment, Centre
National de la Recherche
Scientifique (CNRS), University of
Toulouse, Campus ENSAT,
Auzeville Tolosane, France

Message from the Editor-in-Chief

In the context of global changes, the sustainable management of water cycles, going from global and regional water cycles to urban, industrial and agricultural water cycles, plays a very important role on the water resources and on their relationships with food, energy, biodiversity, ecosystem functioning and human health. *Water* invites authors to provide innovative original full articles, critical reviews and timely short communications and to propose special issues devoted to new technological and scientific domains and to interdisciplinary approaches of the water cycles. We ensure a critical review process and a quick turnaround between submission and final decision.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, GeoRef, PubAg, AGRIS, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q2 (*Water Resources*) / CiteScore - Q1 (*Water Science and Technology*)
