

1. Correlation score between drug and disease (C14.907). 2. Stability scores of drugs and their distribution box plots when predicting diseases of C14.907. 3. Adjusted cosine similarity of pathogenic genes for diseases of C14.907. 4. Adjusted cosine similarity of pathways for diseases of C14.907. 5. Adjusted cosine similarity of target genes of drugs screened when predicting potential therapeutic drugs for the disease of C14.907. 6. Adjusted cosine similarity of pathways of drugs screened when predicting potential therapeutic drugs for the disease of C14.907.
