Autonomous and Connected Vehicles

Guest Editor:

Dr. Piotr Borkowski

Faculty of Computer Science and Telecommunications, Maritime University of Szczecin, 70500 Szczecin, Poland

Deadline for manuscript submissions:
30 November 2024

Message from the Guest Editor

The aim of this Special Issue is to bring together researchers and practitioners involved in the autonomous vehicles field. Autonomy in vehicles is broadly understood as connected vehicles, vehicles with navigational decision support system, vehicles with a limited crew, remotely controlled vehicles, and fully autonomous vehicles. In this Special Issue, articles describing innovative discoveries, methods, systems, and solutions that impact the advancement of vehicle autonomy, especially in the field of navigation, are welcomed.

Special Issue

Editor-in-Chief

Prof. Dr. Flavio Canavero
Department of Electronics and
Telecommunications,
Politecnico di Torino, 10129
Torino, Italy

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, and other databases.
Journal Rank: JCR - Q2(*Electrical and Electronic Engineering*) CiteScore - Q2 (*Electrical and Electronic Engineering*)
