Message from the Guest Editors

This Special Issue aims to spotlight recent developments in cell-based technologies and their pivotal role in shaping the landscape of precision diagnostics. We invite contributions focusing on current laboratory analytical performance and research related to biomedical applications. Additionally, we welcome submissions spanning fundamental cellular analyses, innovative applications of flow cytometry, breakthroughs in immunohistochemistry, and insights from cytogenetic studies. Our goal is to offer an insightful panorama of the dynamic landscape of cell-based diagnostics, highlighting their significance within the realm of general laboratory medicine.

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.
Journal Rank: JCR - Q2 (*Medicine, General & Internal*)
