

Supplementary Information S8: Partial dependence plots showing the marginal effect of selected habitat variables on the predicated occurrences of Common Cranes and Demoiselle Cranes

Fig. 1 Partial dependence plot showing the marginal effect of cropland on the predicted occurrence of Common Crane-1 in Gir-Somnath landscape

Fig. 2 Partial dependence plot showing the marginal effect of water bodies on the predicted occurrence of Common Crane-1 in Gir-Somnath landscape

Fig. 3 Partial dependence plot showing the marginal effect of open scrub on the predicted occurrence of Common Crane-1 in Gir-Somnath landscape

Fig. 4 Partial dependence plot showing the marginal effect of cropland on the predicted occurrence of Common Crane-1 in Porbandar

Fig. 5 Partial dependence plot showing the marginal effect of open scrub on the predicted occurrence of Common Crane-1 in Porbandar

Fig. 6 Partial dependence plot showing the marginal effect of water bodies on the predicted occurrence of Common Crane-1 in Porbandar

Fig. 7 Partial dependence plot showing the marginal effect of cropland on the predicted occurrence of Common Crane-2 in Bhavnagar

Fig. 8 Partial dependence plot showing the marginal effect of water bodies on the predicted occurrence of Common Crane-2 in Bhavnagar

Fig. 9 Partial dependence plot showing the marginal effect of cropland on the predicted occurrence of Common Crane-2 in Gir Somnath

Fig. 10 Partial dependence plot showing the marginal effect of open_scrub on the predicted occurrence of Common Crane-2 in Gir Somnath

Fig. 11 Partial dependence plot showing the marginal effect of cropland on the predicted occurrence of Demoiselle Crane-1 in Bhavnagar

Fig. 12 Partial dependence plot showing the marginal effect of water bodies on the predicted occurrence of Demoiselle Crane-1 in Bhavnagar
