The authors wish to make the following correction to their paper [1]. Table 1 should be replaced by the following table:

Table 1. Relative atomic size difference, δ_{rij} , and modulus difference, δ_{Gij} , of the alloying element pairs.

$\delta_{rij}/\delta_{Gij}$	Mo	Nb	Ta	V
Mo	0	-0.049/0.696	-0.049/0.621	0.036/0.901
Nb	0.049/-0.696	0	0/-0.084	0.085/0.243
Ta	0.049/-0.621	0/0.084	0	0.085/0.325
V	-0.036/-0.901	-0.085/-0.243	-0.085/-0.325	0

The numbers in the previous table stand for $\frac{9}{8}c_i\delta_{rij}/\frac{9}{8}c_i\delta_{Gij}$, not for $\delta_{rij}/\delta_{Gij}$ (c_i is the atomic percentage), so all the numbers are different to those in the new table. Considering the relative difference of the alloying element pairs can be intuitively demonstrated by $\delta_{rij}/\delta_{Gij}$, we suggest replacing the table. We apologize for any inconvenience caused to readers. The manuscript will be updated and the original will remain available on the article webpage.
