Received: 24 June 2020; Accepted: 25 June 2020; Published: 26 June 2020

The authors wish to make the following corrections to this paper [1] published in *Int. J. Mol. Sci.* 2018, 19(10), 3031:

We have found that Sections 2 and 4 are the same in our paper [1]. The repeated Section 4 should be deleted, and the subsequent Section numbers need to be adjusted accordingly. The corrected Section order should be:

- 1. Introduction: DAPKs, MAPKs
- 2. Cellular Functions of DAPK Family Proteins
- 3. Regulation of DAPK Family Proteins
- 4. DAPKs in Disease
- 5. Cross-Talk between DAPKs and ERK Signaling
- 6. DAPKs as Upstream Activators of Stress-Activated Protein Kinases p38 and JNK
- 7. DAPKs are Therapeutic Targets of Small Molecule Inhibitors
- 8. Conclusions

These changes have no material impact on the conclusions of our paper. The authors would like to apologize for any inconvenience caused to the readers by these changes.

Conflicts of Interest: The authors declare no conflict of interest.
