

Supplementary Materials:

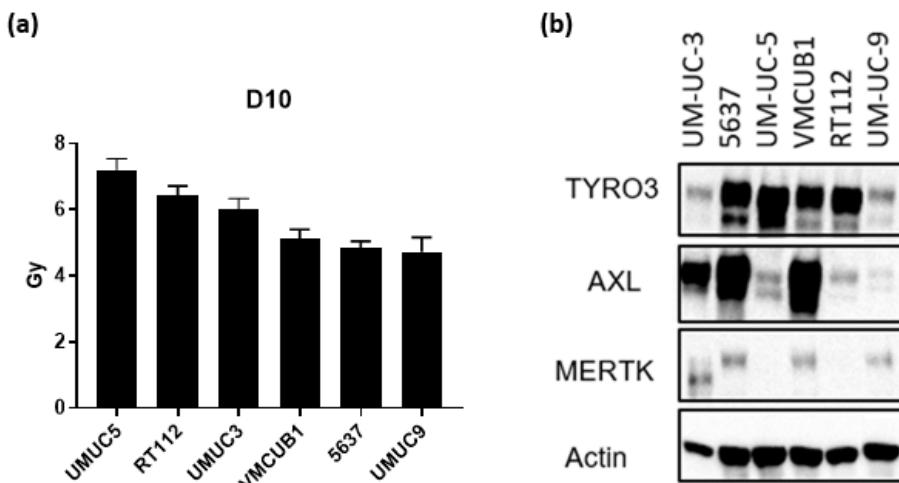

Figure S1. Radiosensitivity and TAM expression in BCa cell lines. D₁₀ values of 6 BCa cell lines (a) and TAM receptor expression at protein level in BCa cell lines (b).

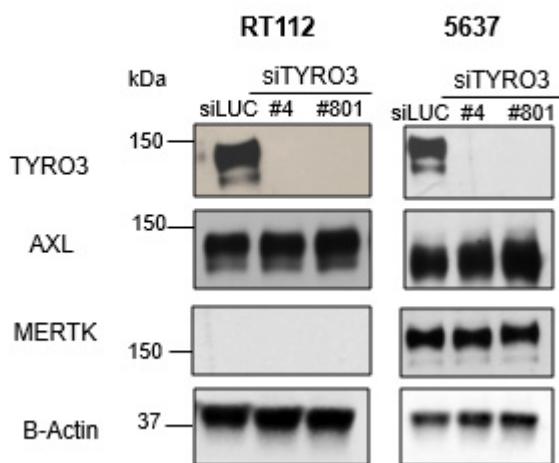

Figure S2. TAM expression levels following TYRO3 downregulation. siTYRO3#4 and siTYRO3#801 were used to downregulate TYRO3 and its impact on other TAM receptor expression was evaluated.

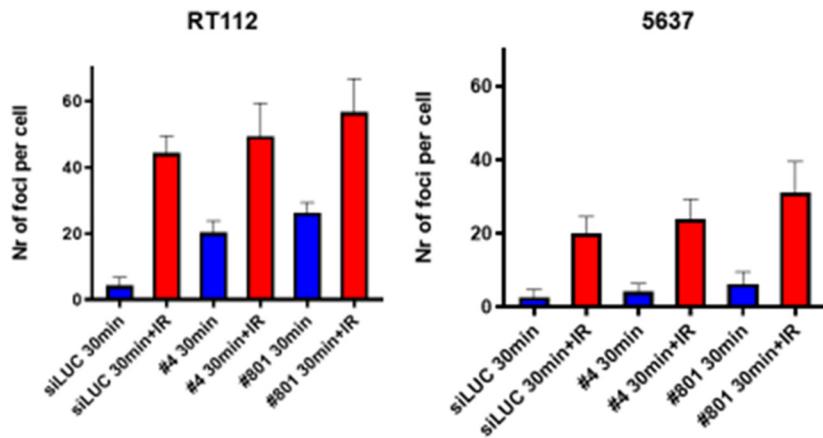

Figure S3. γ H2AX foci 30 min after 2Gy or mock irradiation in RT112 and 5637 cell lines. A representative experiment is shown.

Table S1. Sequences of siRNAs used in the study.

siRNA	Exons targeted	Manufacturer	Reference	Sense strand sequence	Antisense strand sequence
siLUC (Luciferase GL2 siRNA)		Qiagen	ID: 1022070	5'-CGUACGCGAAUACUUCG ATT-3'	5'-UCGAAGUAUUCGGCGUAC GTT-3'
