

Supplemental material Table S1. Sampling specimens for stomach content analysis form previous study and additional sampling in this study

Species	Lee et al. 2014 (April & July, 2011)		Additional sampling (July & October, 2011)	
	n	TL range (cm)	n	TL range
<i>Lethrinus atkinsoni</i>				
Small	13	2-5	13	2-6
Medium	5	8-14	6	6-15
Large	6	15-19	16	18-30
<i>Lethrinus obsoletus</i>				
Small	18	2-6	10	2-6
Medium	8	6-13	22	6-15
Large	4	15-25	15	15-30
<i>Lethrinus harak</i>				
Small	13	3-6	19	2-6
Medium	20	6-13	13	6-15
Large	12	15-20	10	17-36
<i>Lutjanus fulviflamma</i>				
Small	0		24	2-7
Medium	6	6-13	4	6-11
Large	2	20-21	21	15-24

Supplemental material Figure S1. MDS results of stomach content analysis form previous study and additional sampling of (a) *Lethrinus atkinsoni*; (b) *Lethrinus obsoletus*; (c) *Lethrinus harak* and (d) *Lutjanus fulviflamma*. All data show significant different between body size, but was not significant different between two sampling. The abbreviations of body length size categories are S: small, M: medium and L: large.
