

Table S1. Original data of habitat preferences in Hymenophyllaceae from c. 160 sources. Given are valid species name following [27], the species name used in each reference, the reference itself, and % preference for, respectively, epiphytic (EV), lithophytic (LV) and terrestrial growth (TV).

Valid species name	Species name in source	Reference	EV (%)	LV (%)	TV (%)
<i>Abrodictyum angustimarginatum</i>	<i>Trichomanes angustimarginatum</i>	[20]	0	0	100
<i>Abrodictyum angustimarginatum</i>	<i>Abrodictyum angustimarginatum</i>	[56]	0	0	100
