'-' means undetected; 'T' means tributary.

**Table 2.** DOC and DON concentrations of worldwide rivers.

Rivers	Observations	DON or DOC mg/L (min-max)	Reference
New Jersey, East Bass River Delaware (New Jersey) Hudson (New York) Altamaha (Georgia) Savannah (Georgia) Pocomoke (Maryland) Choptank (Maryland), Peconic (New York) Rivers	9 rivers along the east coast of the United States: The New Jersey, Delaware, Hudson, Bass, Altamaha, Savana watersheds dominated by forests. Pocomoke, Choptank and Peconic Rivers are dominated by human activities	Forests dominated area: 0.02–0.18 (DON) 4.46–7.18 (DOC) polluted area: 0.21–0.49 (DON) 4.45–9.01 (DOC)	[1]
Mullica River watershed	Atlantic white cedar bogs <i>Chamaecyparis thyoides</i> located in the Pine Barrens region of New Jersey. River waters for analyses were collected from two pristine and two polluted areas	Pristine area: 0.13–0.29 (DON) 0.19–4.85 (DOC) polluted areas: 0.19–0.70 (DON) 4.46–26.4 (DOC)	[2]
Guadalquivir River	Watershed located in the central-eastern part of the province of Jaén in south-east Spain. Agriculturally dominated catchment.	6.3–19.8 (DON)	[3]
Nile River	Nile River Damietta Branch located in northern Egypt. The Nile-Damietta Branch is subject to anthropogenic inputs from agricultural run-off, domestic wastewater, industrial activities and fish cages and extensive boating activities.	0.23–0.30 (DON) 2.81–8.41 (DOC)	[4]
Ovens River	The watershed is located in south-eastern Australia and drains the Victorian highlands. 63 -99% of total area is forest, followed by agricultural field.	0.02–0.69 (DON) 0.22 -7.14 (DOC)	[5]
Brazos River	The cities of and rural areas surrounding Bryan and College Station in south-central Texas. Mainly pasture and crop agricultural field	0.60–1.90 (DON) 20.40 -52.50 (DOC)	[6]
Otonabee River	Watersheds of south-central Ontario, Canada. Agriculturally dominated catchment.	1.7–24.1 (DOC)	[7]
Mississippi River	The Mississippi River is the largest river in North America and the sixth largest	0.6–5.35 (DOC)	[8]

	river in terms of water discharge in the world. Contaminated by human activities.	
World rivers	Major rivers in subarctic and tropical zone, which are still unpolluted.	World average 5.35 (DOC) 0.15-1.1 (DON) [9]
