## Supplementary File S1 Individual Questionnaire - Selected Questions – Characterization of Health Problems

**Now let's talk about symptoms related to contact with green tobacco leaf (harvesting and handling). After picking tobacco, some people often experience dizziness or headache along with nausea or vomiting:**

Have you ever had these symptoms in your life right after picking tobacco?

(0) No      (1) Yes      (9) Ign

How many times?

\_\_\_\_ times      (77) Many times      (99) Ign

In the last month, have you had dizziness or headache along with nausea or vomiting after picking tobacco?

(0) No      (1) Yes      (9) Ign

In the past week, have you had or are you still experiencing dizziness or headache, as well as nausea or vomiting, after picking tobacco?

(0) No      (1) Yes      (9) Ign

**Now let's talk about pesticide poisoning.**

Have you ever had pesticide poisoning in your life?

(0) No, I have never had pesticide poisoning

(1) I had symptoms related to the use of pesticides, but not sure if it was poisoning

(2) Yes, I already had pesticide poisoning for sure

\* The article considered that respondents had pesticide poisoning when they reported certainty in relation to it, alternative (2).

**Now answer some questions about your breathing and your lungs.**

Do you usually have a cough without having a cold?

(0) No      (1) Yes      (9) Ign

Have you ever had wheezing in your chest in the last 12 months?

(0) No      (1) Yes      (9) Ign

**Now let's talk about back pain. Consider the figure below to answer the questions.**

In the last 12 months, have you had back pain?

(0) No      (1) Yes      (9) Ign

If yes, ask if the respondent had pain in each of the regions indicating the location by color in the figure.

Cervical region (Neck – green color)

(0) No      (1) Yes      (9) Ign

Thoracic region (blue color)

(0) No      (1) Yes      (9) Ign

Low back region (red color)

(0) No      (1) Yes      (9) Ign
