The authors wish to make the following corrections, due to typographical errors, to this paper [1].

On page 5007, line 17, the sentence "...for which the threshold value is 0.2 Pa" should be "...for which the threshold value is 0.2 bar". Line 19, Equation 1 should be changed from

$$p_e - p_0 = \Delta p \leq \Delta p^* = 0.07 \text{ Pa} \quad (1)$$

to

$$p_e - p_0 = \Delta p \leq \Delta p^* = 0.07 \text{ bar} \quad (1)$$

The authors would like to apologize for any inconvenience caused to the readers by these changes.
