Q1.4.

Before agreeing to participate in the study, it is important that you read the following explanation. After reading the explanation of the study (informed consent form), please, answer the following questions by ticking either the "Yes" or "No" boxes

Title and details of research: Risk Evaluation Approach for the Solotvyno Municipality. This study is part of the larger European Union project "Improving Disaster Risk Reduction in the Transcarpathia Region", Ukraine - ImProDiReT (Principal Investigator (henceforth "PI"): Prof. Bartel Van de Walle, EU DG ECHO project 783232 on Risk Governance). More information on this project can be found here: <http://www.improdiret.eu/>

Researcher: Dr. Abby Muricho Onencan (henceforth "Researcher"), Department of Multi-Actor Systems, Section Policy Analysis, Faculty of Technology, Policy and Management, Delft University of Technology, NL

Purpose of the research: The purpose of the survey is to assess how we can make the Solotvyno community safe. The data will provide input for the community action plan to reduce risks associated to the collapse of the land near the salt mines.

Confidentiality and data management: We will collect information about the risk evaluation, the disaster risk preparedness and the place attachment. In addition, geo-referenced data will be collected to map the community perceptions on the land subsidence risk. Processing and storing of your data will be handled in accordance with the European Union 2016/679 General Data Protection Regulation. You have the right to request access to, change or erasure of your personal data at any time. Any personal sensitive data, such as names, identities, location, will be replaced, scrambled or blurred to ensure that anonymized data cannot be linked back to you. The anonymized data may be used for research and publications. For the project duration (September 1 2019 - February 29, 2020), personal information will only be accessible to the project members (the Researcher a PI). The data are stored in the Netherlands and are never made available to third parties. After the project, the anonymized data and research results (non-personal) will be archived for a period of 10 years and will be accessible to anyone.

Explanation of procedures: You will be invited to answer a set of questions about your perceptions of the land subsidence risk in Solotvyno municipality, your level of preparedness and how attached you are to the area. The estimated duration to answer the questions ranges from 15 - 30 minutes.

Risks: The main risks of participating in the study are linked to the interception of your personal data during the processing and storage of the information provided by you to complete this study. The researcher has minimized the risks by using only the anonymized data that cannot be linked back to you and taking the appropriate measures of storage and access control to secure the sensitive data during and after the project. The data interception risks are thus minimal. Participation in the survey is otherwise safe for the participants. By participating in this study, you do not undergo specific health risks.

Questions: Any questions concerning the research and the survey and/or in the case of issues due to the research can be directed to the researcher, Abby M. Onencan, TU Delft /Faculty of TPM, Jaffalaan 5, 2628 BX Delft, Email: A.M.Onencan@tudelft.nl.

Land Subsidence Preparedness Scale

Q5.1. Do you have the following ready in case the land subsidizes? Please check to each item either 'yes', 'unsure' or 'no.'

	Yes	Unsure	No
1. Important documents stored in a portable lockbox or safe-deposit box.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
2. Home inventory stored it in a portable lockbox or safe-deposit box.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
3. The radio is on and fully serviced.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
4. Torch lights / flashlights (with enough batteries) /candles / hurricane lamps / backup generator are ready.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
5. Emergency Supplies Kit that can serve as a "grab and go" bag	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
6. Clean drinking water.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
7. First aid box.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
8. Necessary financial arrangements in case of a sudden evacuation.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
9. Insurance policy (property, health, life, and/or land subsidence)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
10. Emergency Response Communication Plan with a "family contact" outside Solotvyno?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Q5.2. Please rate the difficulty of preparing for each item, by your household, on a five-point scale ranging from 'not difficult at all' to 'extremely difficult.'

	Not difficult at all	A little difficult	Somewhat difficult	Very difficult	Extremely difficult
1. Important documents stored in a portable lockbox or safe-deposit box.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
2. Home inventory stored it in a portable lockbox or safe-deposit box.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Solotvyno Community-based Risk Evaluation

Q6.1. In your opinion, what is the level of danger for people living or conduct business(es) in the following areas? (refer to the Q2.8 map)

	CATASTROPHIC (Immediate relocation)	CRITICAL (Very dangerous, living there is not recommended)	MODERATE (need for risk reduction measures to reduce the risks)	MINOR (risky only in specific places that can be avoided or cured)	INSIGNIFICANT (generally safe)
1. Magura Mountain Slopes	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
2. Terrace Slopes	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
3. Mine 9 area	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
4. Mine 8 area	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
5. Mine 7 area	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
6. Salt Lake area	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
7. Black moor area	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Q6.2. In your opinion, what is the likelihood/probability that the following subsidence related consequences will occur if the current situation continues unchecked?

	Highly Probable	Probable	Remote	Improbable	Extremely Improbable
1. Loss of Life / Lives	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
2. Severe casualties (locals and tourists).	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

	Highly Probable	Probable	Remote	Improbable	Extremely Improbable
3. Economic loss (damaged/collapsed buildings & infrastructure).	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
4. No drinking water (destruction of water facility)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
5. No schools (Hungarian, Romanian etc.)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
6. Salination of agricultural grounds	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
7. Salination of Tisza and Danube Rivers (downstream)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
8. Loss of work	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
9. Homelessness	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
10. No transport infrastructure (destruction of rail and main roads)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
11. No cooking gas (destruction of the gas pipeline)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
12. Backout in Soltvyno (long-term) and Rakiv region (destruction of the electric power substation)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Q6.3. Suppose you have been given ownership to a house in any of the areas below, based on your current understanding of the land subsidence risk in Soltvyno, what would you choose? For each item, please select either '**Option A**' (accept ownership and move in immediately), '**Option B**' (only accept ownership if certain safety measures are implemented first), or '**Option C**' (decline to reside in the area)

	Accept ownership and move in immediately	Only accept ownership if certain safety measures are implemented first	Decline to reside in the area
1. Magura Mountain Slopes	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
2. Terrace Slopes	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
3. Mine 9 area	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
