

Supplementary Material

Section S1. Spatial distribution of indicators covered by the ER assessment

The indicators involved in the ER assessment, normalized to the results shown below:

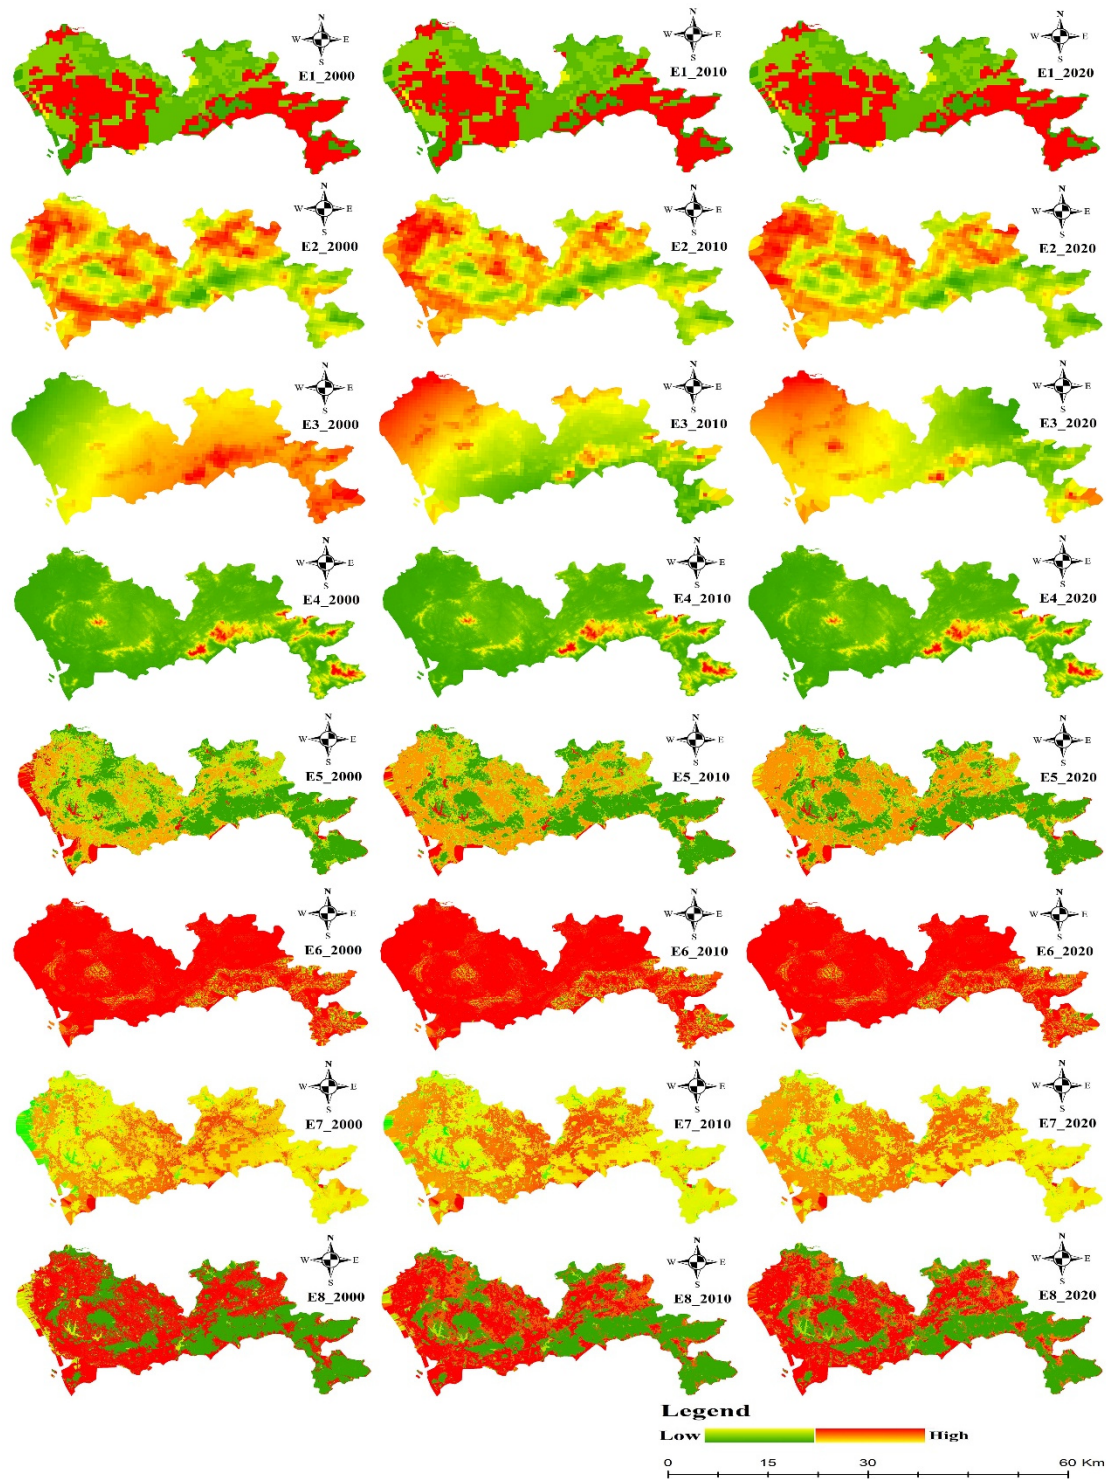

Figure S1. Results after standardization of indicators covered by ecological subsystems.

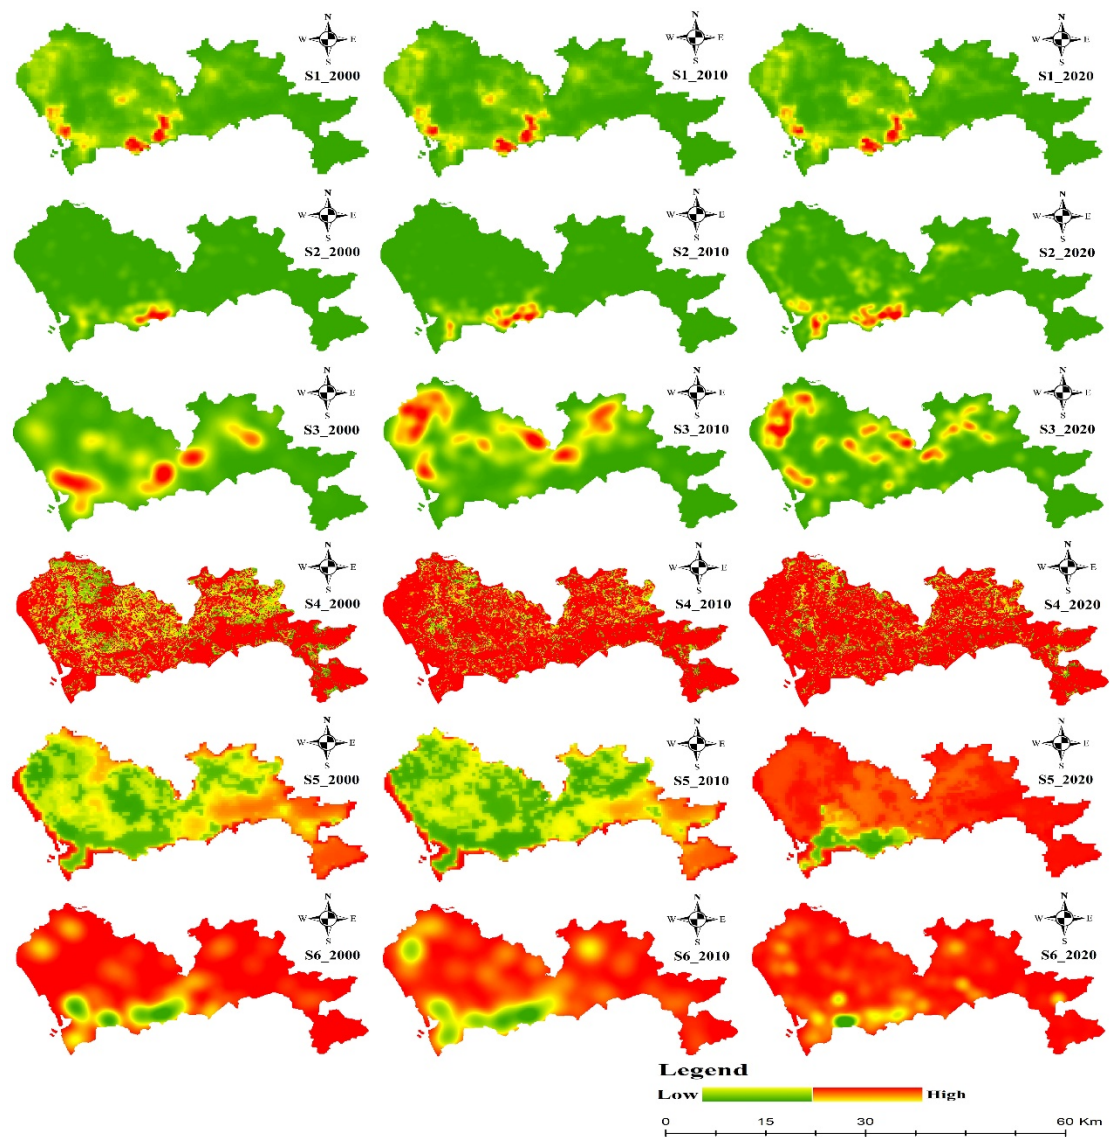

Figure S2. Results after standardization of the indicators covered by the social subsystems.

Section S2. Uncertainty of sample points in the ER and its subsystems in 2010 and 2020.

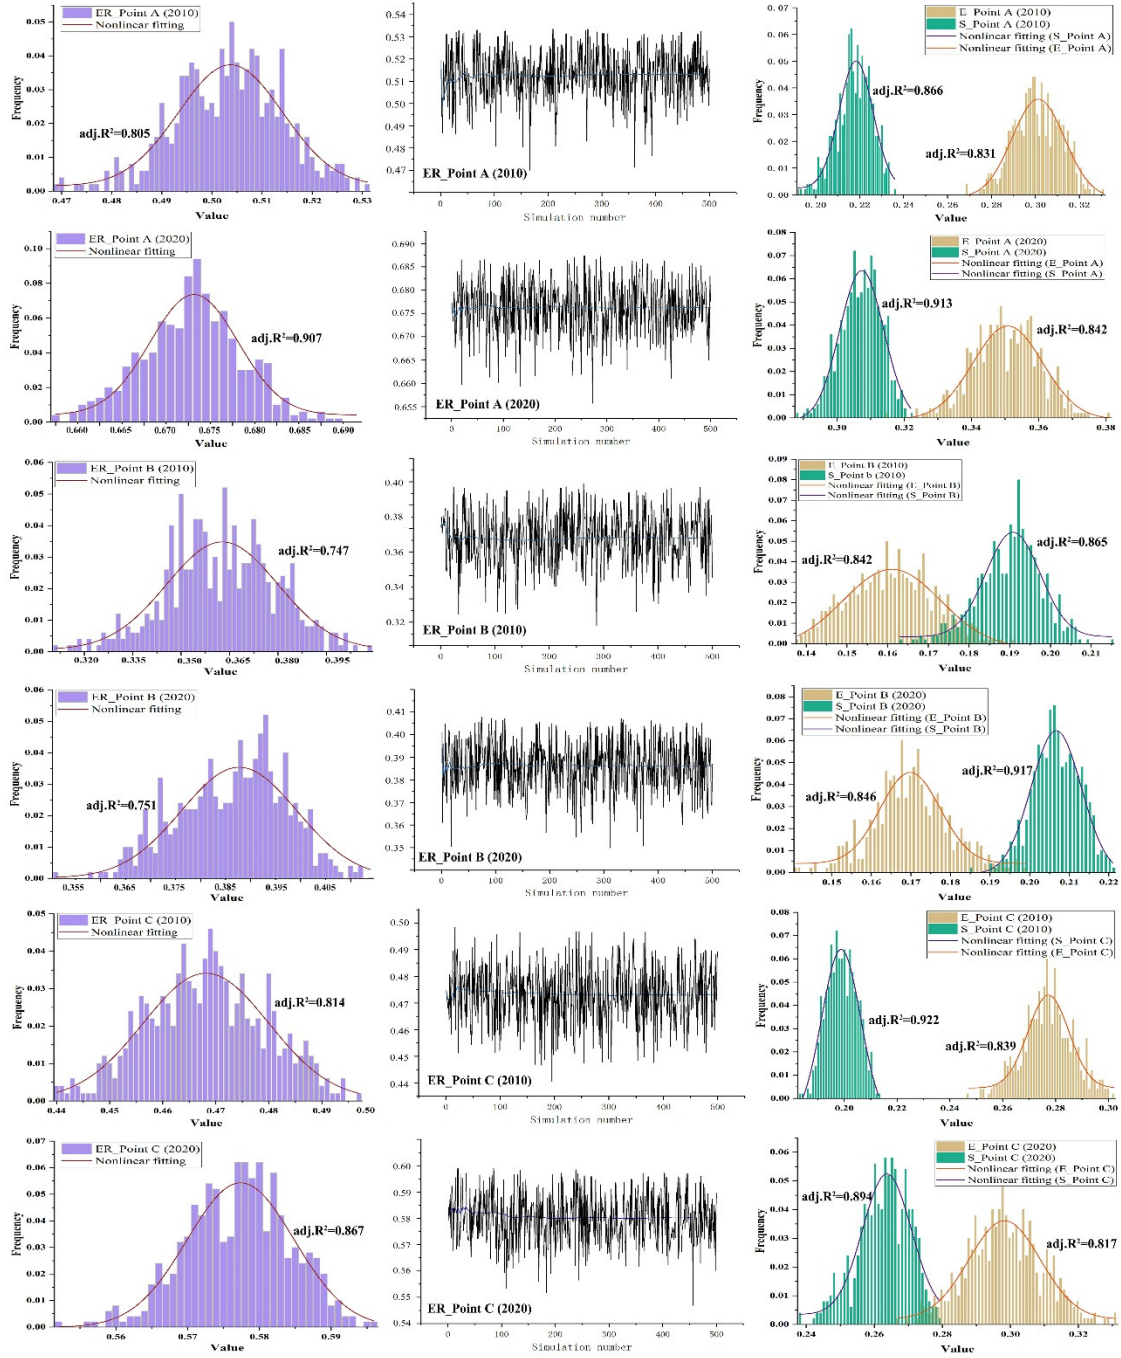

Figure S3. Uncertainty of sample points in the ER and its subsystems (2010 and 2020).
